

145 Bustad Hall
WSU
Pullman Campus

WSU—Native American Student Center

Native Cultural Heritage Event.

DATE: **March 26, 2007**

TIME: **12:00 to 1:00 PM**

Mt. Goat Study Presentation

Presentation by Chris Danilson, Sauk Suiattle Indian Tribe, Wildlife Program Manager whose work involves: scientific research, biological monitoring and surveys, regulatory compliance, and natural resource policy. Our current priority wildlife projects here at Sauk Suiattle include: 1) mountain goat research and recovery; 2) elk herd management; 3) population monitoring of wintering bald eagles. Original research data begun in 1949 thru the mid-1990's upon which this study grew out of comes from work by Art Ryalls, US Forest Service.

Highlights

- Slide Show Presentation of
43 slides of North
Cascades focus area
- Data—Mt. Goat Counts
- Compiled Scientific
Research
- Native Culture and Outlook
